RE: Resolution 02062017-2 Postponing CAC Vote on Sustainability Plan

At the February 06, 2017 meeting of the Faculty Senate, a motion was passed to the effect that given that the Faculty Senate is not prepared to endorse the Sustainability Plan at present because it has not been vetted by Departments, and given that there are grave concerns over language in the Sustainability Plan on including plan goals and outcomes in hiring and curriculum decisions, the Faculty Senate recommends that the CAC vote be postponed one month in order to give time for departmental input and a possible plan revision.
