MEMORANDUM

April 22, 2015

TO: Veronica Ogata
Faculty Senate Chair

FROM: Leon Richards
Chancellor 

SUBJECT: Response to Resolution 03022015-2

Here is the response to Faculty Senate's request to revise the requirement for the Associate in Arts (AA) in Liberal Arts natural science diversification requirement so that a non-matching (DY) laboratory science is acceptable.

The solution will be to change one statement in the catalog:

FROM:
"Two semester courses. At least one lecture course each must be chosen from DB and DP. One of the two lecture courses must also have a paired laboratory course."

TO:
"Three semester courses. At least one each from DB (lecture), DP (lecture) and DY (laboratory)".

This would appear in the descriptions of the program requirements for the AA in HWST, AA in Lib Arts (and all the concentrations) and the ASNS. However, this will appear in the 2016-2017 catalog. Time is required to inform students and counselors. Additionally, time is required to program the change in STAR.

Mahalo.
